

Do not let the "Do not call" Registry go away. I had to change phone numbers recently, and when I got my new number, within 3 days I was getting 6-10 calls a night from solicitors until I registered my new number. Businesses have a right to advertise, but they do NOT have a right to solicit me or my family in my house or on a piece of equipment I pay for for my personal communication needs.

Thank you

Scott Hicks
